VERSCHIEDENES MISCELLANEOUS

Brown Bag Seminar - Max Planck Institute for Innovation and Competition

Prof. Dr. Joel Stiebale (University of Düsseldorf)

“Acquisitions, Markups, Efficiency, and Product Quality: Evidence from India”

Monday, January 29th 2018 at 14:00 pm to 15:30 p.m., Max Planck Institute for Innovation and Competition, Marstallplatz 1, Room 313, third floor.

Abstract:

This paper uses a rich panel data set of Indian manufacturing firms to analyze the effects of domestic and international acquisitions on various outcomes at target firm and product level. We apply recent methodological advances in the estimation of production functions together with information on prices and quantities to estimate physical productivity, markups, marginal costs and proxies for product quality.

Using a propensity score reweighting estimator, we find that acquisitions are associated with increases in quantities and markups and lower marginal costs on average. These changes are most pronounced if acquirers are located in technologically advanced countries. We also provide evidence that the quality of products increases while quality-adjusted prices fall upon acquisitions. Our results indicate that technology transfer from foreign acquirers to domestic firms, predicted by theories of multinational firms, can materialize in both cost- and quality-based gains and benefit both firms and consumers.

1st CESifo EconPol Europe PhD Workshop: “Economic and Fiscal Policy in Europe”, CESifo Conference Centre, Poschingerstr.5, 81679 Munich

Donnerstag/Thursday, 01 February – Freitag/Friday, 02 February

This is the first CESifo EconPol Europe PhD workshop, the aim of which, is to bring together PhD students whose research focuses on economic and fiscal policy issues in the European context and to strengthen the collaboration between EconPol network members. EconPol Europe - the European Network for Economic and Fiscal Policy Research is a unique collaboration of nine policy-oriented university and non-university research institutes that will contribute their expertise to the discussion of the future design of the European Union. The keynote lectures will be delivered by Jörg Rocholl, ESMT Berlin and Thomas Hemmelgarn, European Commission.
