PETRA MOSER, NYU STERN
“Inequality in American Science”

Abstract: Advances in science and innovation are the number one source of sustained improvements in individual well-being and economic growth. This project examines the origins of American leadership in science and innovation in the 20th century, starting with three major questions: 1) How has socioeconomic inequality influenced participation in American science? 2) What are the benefits of public investments in education, reaching from pre-K to the university level? 3) How has immigration influenced science and innovation in the United States? A major challenge for empirical analyses of science lies in the absence of systematic long-run data on successful scientists, including their socioeconomic background, education, work histories, inventions, and publications. This research constructs such data for more than 100,000 American scientists who were born between 1817 and 1933. Machine-learning algorithms link each scientist with their census records, patents, and publications. Empirical analyses examine the effects of ethnicity-based restrictions on immigration in the 1920s to investigate the effects of such policies on US science and innovation. Tests for inequality examine the changing influence of a person's socioeconomic background on their success as a scientist. Analyses of education investigate the effects of expansions in public education on participation in STEM by people who were disadvantaged based on their socioeconomic status, as well as by women and minorities.

Brown Bag / Weekly Research Seminars

Micro Workshop (Le Yaouanq, Schwardmann)

12/17/2018, 12:30 pm-1:15 pm
Ludwigstraße 28, Room 301

- jointly CRC -

TAISUKE IMAI, LMU MUNICH

“Revealed Preference Tests and Experiments on Choice under Uncertainty”
(with Federico Echenique and Kota Saito)

Micro Workshop (Le Yaouanq, Schwardmann)

12/17/2018, 1:15 pm-2:00 pm
Ludwigstraße 28, Room 301

- jointly CRC -

BENJAMIN HÄUSINGER, LMU MUNICH

“Explaining the Reluctance to Ask for Advice: Reputation Concerns”

ORG Seminar (Englmaier, Kretschmer, Weller)

12/18/2018, 12:00 noon-1:30 pm
Prof.-Huber-Platz 2, Room V005

POOYAN KHASHABI, LMU MUNICH

“IQ and Employee Mobility”

ANKE SCHULZ, LMU MUNICH

“When Algorithms Take Over:
Who Uses Robo Advisory for Investment Decisions”

IO and Trade Seminar (Eckel, Schnitzer)

12/18/2018, 12:15 pm-01:30 pm
Akademiestraße 1/III, Library of the Seminar for Comparative Economics

FELIX MONTAG, LMU MUNICH

“The Effect of Vertical Integration on Product Quality:
Evidence from the Paramount Antitrust Case”

Research Workshop “Empirical Economics”

12/18/2018, 2:00 pm-3:30 pm
Prof.-Huber-Platz 2, Leharturm, W401

JANN SPIESS, HARVARD UNIVERSITY

“Optimal Estimation when Researcher and Social Preferences are Misaligned”

Public Economics Seminar (Fuest, Haufler, Holzner, Peichl, Sachs)

12/20/2018, 12:00 noon-1:30 pm
CES, Schackstraße 4/II, Room 214

DIRK SCHINDLER, NORWEGIAN SCHOOL OF ECONOMICS

“Theory and Implications of Flexibility in Income Shifting under Losses”

CESifo – Süddeutsche Zeitung / Munich Seminars

12/17/2018, 6:00-7:30 pm
Geschwister-Scholl-Platz 1, Große Aula

HANS-WERNER SINN, RETIRED PRESIDENT AT THE IFO INSTITUTE

“Brexit’s Implications for Germany and Europe”

Abstract: Brexit will trigger far-reaching changes in the political structure of the European Union that will damage both its member states and Germany. This lecture will explore the economic and political implications of Britain’s exit from the EU and present proposals for Germany’s European policy.

The speech will be given in German. Please note that seating is limited and only persons who have registered in advance can be admitted. The presentation will be livestreamed. Recordings will be available a few days later on demand in the Media Library.
